Independent Auditor's Report

Members of the School Board Shamokin Area School District Shamokin, Pennsylvania

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Shamokin Area School District (the District) as of and for the year ended June 30, 2022 and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District's, as of June 30, 2022 and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the District's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of net pension liability, schedules of pension contributions, schedule of net OPEB liability, schedule of OPEB contributions, and Changes in Fund Balances – Budget to Actual – General Fund, as listed in the table of contents, be presented to supplement the basic financial statements.

Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Expenditures of Federal Awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Klacik & associates, P.C.

Shamokin, Pennsylvania

March 30, 2023

SHAMOKIN AREA SCHOOL DISTRICT COAL TOWNSHIP, PENNSYLVANIA

The discussion and analysis of Shamokin Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2022. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the new reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

During the fiscal year 2021-2022, the Shamokin Area School District experienced another year of increases in the costs for labor and instruction and increase in revenue. Overall our expenditures decreased by 4%. The increase was primarily due to the learning loss programs/interventions, one to one computers, and ESCO project in which ESSER grant funds were applied to these costs during the school year. In addition, the district expenditures did see increases in the areas of tuition paid to cyber/charter schools, salary and benefits of staff, and other mandates that have been underfunded. The District's revenue increased by 5% which was due to an increase in local and federal funds. Our local funds increased by 10% and federal funds increased by 55%. The federal funds were mainly due to the CARES Act related to the Covid-19 pandemic. In the budgeting process, the Board of School Directors balanced the budget by utilizing the general fund balance. The district's actual expenditures did exceed the revenues collected for this school year. The general fund balance has been decreased by \$443,652.00.

Even though Northwestern Academy closed its doors in 2015-16, the district is still collecting on unpaid invoices. It is noted that prior to 2012—2013, it was understood and agreed that the District's liability to Northwestern shall be strictly a pass through limited to reimbursement it receives from the resident student's home district within Pennsylvania less seven percent. For years 2012-13 through 2015-16, the district was charged a lease/rental fee from Northwestern Academy to educate the students on-site. Many resident home districts have not paid this fee which was included on the tuition invoices for the education services provided to the students residing at Northwestern Academy. The district continues to send invoices to Districts with an outstanding balance in efforts to collect unpaid balances.

USING THE ANNUAL FINANCIAL REPORT (AFR)

This annual report consists of two distinct series of financial statements: district-wide and fund.

The first two statements (district-wide) are government-wide financial statements – the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.

The remaining statements (fund) focus on individual parts of the Districts operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary

fund statements offer short-term and long-term financial information about the activities that the District operates like a business. For this District, this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

Figure A-1 Required Components of Financial Report

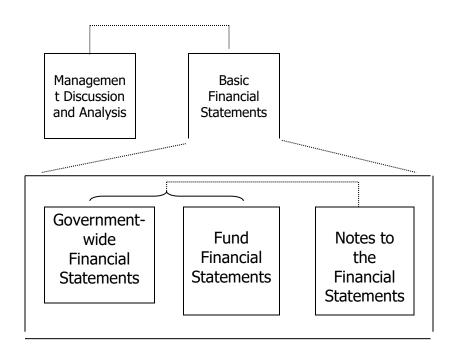

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

Figure A-2 Major Features of Government-wide and Fund Financial Statements

| | | | Fund Statements | |
|-------------------------------------------|------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| | Government- wide Statements | Governmental Funds | Proprietary Funds | Fiduciary Funds |
| Scope | Entire District (except fiduciary funds) | The activities of the District that are not proprietary or fiduciary, such as education, administration, and community services | Activities the District operates similar to private business – Food Services | Instances in which the District is the trustee or agent to someone else's resources – Scholarship Funds |
| Required financial statements | Statement of Net Position (NAGW) Statement of Activities (SOA) | Balance Sheet (NAG) Statement of Revenues, Expenditures, and Changes in Fund Balance (REG) | Statement of Net Position (NAP) Statement of Revenues, Expenses, and Changes in Net Assets (REP) Statement of Cash Flows | Statement of Fiduciary Net Assets (NAF) Statement of Changes in Fiduciary Net Assets (CNAF) |
| Accounting basis and measurement focus | Accrual accounting and economic resources focus | Modified accrual accounting and current financial resources focus | (CFP) Accrual accounting and economic resources focus | Accrual accounting and economic resources focus |
| Type of asset/liability information | All assets and liabilities, both financial and capital, and short-term and long-term | Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included | All assets and liabilities, both financial and capital, and short-term and long-term | All assets and liabilities, both short- term and long-term |
| Type of inflow- outflow information | All revenues and expenses during year, regardless of when cash is received or paid | Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter | All revenues and expenses during year, regardless of when cash is received or paid | All revenues and expenses during year, regardless of when cash is received or paid |

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such
 as instruction, administration, and community services. Property taxes, state and
 federal subsidies, and grants finance most of these activities.
- Business type activities –The District operates a food service operation and charges
 fees to staff, students, and visitors to help it cover the costs of the food service
 operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for some scholarship and agency funds. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statement because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Net Position. Due to GASB 68, state and local governments and its entities must recognize their pension liability by reporting the "net pension liability" in their financial statements. "Net pension liability" is the amount by which the total pension liability exceeds the pension plan's net assets (now referred to as a plan net position) available for paying benefits.

Due to GASB 75, state and local governments and its entities must recognize their other post-employment benefits (OPEB) liability by reporting the "net OPEB liability" in their financial statements. "Net OPEB liability" is the amount by which the total OPEB liability exceeds the OPEB plan's net assets (now referred to as a plan net position) available for paying benefits.

With GASB 68 Pension and GASB 75 Opeb, the District's combined net position is (\$ 9,722,298) as of June 30, 2022. (See Table A-3.)

For Years Ended June 30, 2022 and 2021 Net Position

| Food Service | \$0 | \$0 | \$1,415,633 | \$1,099,776 | \$1,415,633 | \$1,099,776 |
| Total Expenses | \$25,356,546 | \$32,174,165 | \$1,415,633 | \$1,099,776 | \$26,772,179 | \$33,273,941 |
| INCREASE (DECREASE) IN NET POSITION | \$9,473,066 | (\$1,165,542) | \$591,032 | (\$162,983) | \$10,064,098 | (\$1,328,525) |

The District's specific revenues as indicated above were \$36,836,277 for the year ended June 30, 2022. This is an increase of prior year. Taxes and State Formula Aid amounted to \$21,221,885. This is an increase of \$811,442 from prior year. Another \$14,096,069 came from Operating Grants and Contributions which reflects a increase of prior year. Food service revenue totaled \$2,006,665. The increase in food service revenue is reflected upon the return to in-school instruction. This resulted in an increase in the number of students eating breakfast and lunch daily on-site. There is a slight increase in investment earnings which is due to the fund balances being maintained as prior year. During the 2020-2021 and the 2021-2022 school years, the district's revenues were affected by the COVID-19 pandemic. Due to the CARES Act, our federal and state funded grants increased to offset costs directly relating to COVID-19. (See Table A-4.)

The total cost of all programs and services was \$25,356,546 with GASB adjustments for the year ended June 30, 2022. The GASB adjustments are primarily GASB 68 Pension and GASB 75 OPEB. (see Table A-5 for adjustments) This reflected an decrease of prior year, and our revenues exceeded the expenditures which resulted in an increase to the fund balance. The majority of the District's costs related to educating and servicing students (Instruction, Instructional Student Support, Pupil Transportation, Student Activities), in the amount of \$17,694,346 or 66.09%, Administrative Costs accounted for \$3,668,946 or 13.70%, Operation of the District's Facilities accounted for \$3,993,254 or 14.92%, and Food Service Costs totaled \$1,415,633 or 5.29%. (See Table A-4.) In general, most of the District's costs are paid for by District taxpayers and taxpayers of the Commonwealth of Pennsylvania.

Table A-5 Gasb Adjustments For Years Ended June 30, 2022

| Depreciation – unallocated | Total Cost of Services 2021-2022 | GASB Adjustments 2021-22 | Statement of Activities 2021-22 |

| Capital acquisition | 119,920 | -119,920 | 0 |
| Refund of prior year revenues | 0 | 0 | 0 |
| Total Expenses | 35,947,922 | -10,591,375 | 25,356,547 |

The results of this year's operations as a whole are reported in the Statement of Activities. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The three largest general revenues are the Basic Education Subsidy provided by the State of Pennsylvania, the local taxes assessed to community taxpayers, and grants from state and federal sources. (See Table A-4.)

FINANCIAL ANALYSIS OF DISTRICT FUNDS

As of June 30, 2022, the District's governmental funds reported a combined fund balance of \$3,972,250 an increase of \$1,361,681 from the prior year amount \$2,610,569. (See Table A-6.) A capital projects fund was created for the bond funds acquired for the current ESCO project which is anticipated to be completed prior to June 30, 2023 depleting the capital projects fund. There was a increase overall. The increase in the general fund is primarily due to the increase in state subsidy and in federal grants. The other factors are specific to two funds:

General Fund:

Overall, actual expenditures of \$33,250,165 reflect 97.79% of the original budget estimate of \$4,000,049. Towards the end of the fiscal year the district historically does not maximize each expenditure line item unless it is deemed necessary. It is noted that staff was furloughed for the onset of the 2020-2021 school year which resulted in a decrease in salary/benefits for operations and maintenance of buildings. These furloughs decreased the budgeted expenditures by 2.8% of the 2021-2022 budgeted expenditures.

Total actual revenue totaled \$33,882,788 equating to an excess of \$632,561 which increases the general fund balance. Local, State, and Federal revenue increased from prior year approximately \$3,335,398. The majority of this increase was in the form of federal grant revenue for expenditures relating to COVID-19 pandemic. The federal revenue increased by 83.8% from prior school year.

<u>Capital Reserve Fund and Capital Projects</u>:

The District established the Capital Reserve fund in accordance with Section 1432 of the Pennsylvania Municipal Code and in compliance with the Pennsylvania School Code. It is utilized for unforeseen and various capital expenditures. In 2021-2022 the district expended a total of \$119,329 in capital projects, purchases, and improvements throughout the district. Prior to 2019-2020 fiscal year, the QZAB debt service of 2011 has been paid from the capital reserve account. All debt will now be paid through the general fund account. The QZAB Bond was affected by the Federal Government Sequestrant which decreased the 100% repayment of the interest. The district is receiving about 91% of the interest paid for the Elementary Project Bond Issuance (QZAB). The District is receiving PlanCon funds for the Elementary Project as of the 2017-18 school year. The plancon funds will be recorded in the general fund. The ESCO (energy) project debt service will be paid from the general fund account. The ESCO (energy) project debt was a loan in prior years. The district refinanced this loan as bond to save funds over the remaining term.

Currently the district has implemented an additional ESCO project which is being funded through ESSER and ARP ESSER funds, Cafeteria fund, and a bond. The bond receipts were deposited into the Capital Projects fund. This ESCO project is anticipated to be completed by June 30, 2023. Repayment of the bond will be general fund through the general fund.

At the beginning of the fiscal year, the capital reserve fund balance was \$606,058. With all of the capital expenditures and revenue, the ending fund balance totaled \$486,729 or a net change in fund balance of \$119,329.

Table A-6 Change in Fund Balances For Years Ended June 30, 2022 and 2021

| | Fund Balance | Fund Balance | Increase |
|--------------------|--------------|--------------|-------------|
| | 30-Jun-22 | 30-Jun-21 | (Decrease) |
| | | | |
| General Fund | \$2,448,706 | \$1,816,145 | \$632,561 |
| | | | |
| Capital Reserve | 486,729 | 606,058 | (\$119,329) |
| Fund | 400,120 | 000,000 | (ψ115,525) |
| | | | |
| Student Activities | 217,276 | 188,366 | 28,910 |
| Capital Projects | 819,539 | | 819,539 |
| Totals | \$3,972,250 | \$2,610,569 | \$1,361,681 |

Revenues for the District's governmental funds were \$33,882,788 while total expenses were \$33,250,165 yielding an excess of of \$632,623 before other financing sources of (\$62). During the 2021-22 school year, the District requested an advance to their Basic Education Funding twice to have a cash flow to support two payroll periods. These advances were deducted from our June 2021 final subsidy payment. It should be noted that the district has requested an advance on its 2022-2023 BEF in July, 2022 for payroll. Our football field replacement cost was divided over four years of payment. The first two years were secured with a donation. 2021-22 was the first year the district made its first installment payment for this replacement. 2022-23 will be the second and final payment for the field replacement from the general fund. The School Board Members voted to use the General Fund to pay for the QZAB (elementary project), the ESCO (MS/HS energy savings), and the ESCO(district wide energy savings) Bonds due to a diminishing Capital Reserve Fund.

General Fund Budget

During the fiscal year, the Board of School Directors (The Board) may authorize revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed at the time the annual audit is accepted, which is after the end of the fiscal year, which is not prohibited by state law.

The District applies for federal, state, and local grants and these grants cannot always be anticipated in the budgeting process.

Budgeted expenditures and other financing sources also increased this same amount to compensate for the additional approved grants. Transfers between specific categories of expenditures/financing uses occur during the year. The most significant transfers occur from the budget reserve category to specific expenditure areas.

The Budgetary Reserve includes amounts that may be funded by designated fund balance for planned opportunities of expenditures for improvements/enhancements to the District operations. The district fund balance has been used to offset past and forecasted future budget deficits but no longer can sustain such action. These amounts will only be appropriated into expenditure categories if the fiscal results of the prior year-end with a positive addition to fund balance, which exceeds the total of these projected expenditures. The Board is using this method of budgeting to control tax

increases while also protecting the integrity of the fund balance. Due to the diminishing general fund balance and recent requests for advances of state subsidies, the district is in communication with PDE regarding their financial concerns and inability to balance an annual budget even with minimal operations being supported.

The following provides a summary of General Fund revenues:

Table A-7 General Fund Revenues For Years Ended June 30, 2022 and 2021

| | Revenues | Revenues | Increase | % |
|--------------------|---------------|---------------|--------------|--------|
| | 2021-2022 | 2020-2021 | (Decrease) | Change |
| Local Sources | \$ 8,240,302 | \$ 7,879,116 | \$ 361,186 | 4.58% |
| other | | | | |
| State Sources | \$ 21,552,287 | \$ 20,443,022 | \$ 1,109,265 | 5% |
| Federal Sources | \$ 4,090,199 | \$ 2,225,252 | \$ 1,864,947 | 83.81% |
| Total Revenue | \$33,882,788 | \$30,547,390 | \$3,335,398 | 10.92% |

The following provides a summary of General Fund expenditures:

Table A-8
General Fund Expenditures
For Years Ended June 30, 2022 and 2021

| | Expenditures | Expenditures | Increase (Decrease) | % |
|-----------------------------------|--------------|--------------|------------------------|--------|
| | 2021-2022 | 2020-2021 | | Change |
| Instruction | \$22,008,935 | \$21,121,759 | \$887,176 | 4.20% |
| Support Sevices | \$9,839,919 | \$8,624,806 | \$1,215,113 | 14% |
| Non- instructional services | \$606,380 | \$537,950 | \$68,430 | 12.72% |
| Debt | \$794,931 | \$735,390 | \$59,541 | 8.10% |
| Refunds of prior year revenues | \$0 | \$0 | \$0 | |
| Total Expenditures | \$33,250,165 | \$31,019,905 | \$2,230,260 | 7.19% |

Total General Fund expenditures increased by \$2,230,260 or 7.19% from the previous year. This increase is due to the District adding additional programs for learning loss and the ESCO project

which is being funded by federal funds. Employees Benefits increased due to increase cost of healthcare and PSERS retirement. Equipment increased due to purchases of computers and technology for classrooms. Charter Cyber School tuition cost increased by \$2,486 from prior school year. This is a result of the district establishing its own virtual instruction program which has cost that are embedded in the total expenditures.

The SAEA and Act 93 agreements expire June 30, 2023. The AFSCME bargaining agreement was negotiated and reflects a new term of July 1, 2023 through June 30, 2026. The agreement includes salary increases that are tiered and based upon years of service. (See Table A-8.)

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2022, the District had \$21,672,189 in net capital assets, including land, buildings, furniture and equipment and construction in progress. This is an increase of 10.41% based on the total of \$19,621,199 in June of 2021 due to increases in construction in progress. (reference table A-9.)

Table A-9
Capital Assets
For Years Ended June 30, 2020 and 2021

| | Governmental | Governmental | Business-Type | Business-Type | | | |
|------------------------------------------------|--------------|--------------|---------------|---------------|--------------|--------------|---------|
| | Activities | Activities | Activities | Activities | Total | Total | % |
| | 2021-2022 | 2020-2021 | 2021-2022 | 2020-2021 | 2021-2022 | 2020-2021 | Change |
| Land | 10,362,707 | 10,362,707 | 0 | 0 | 10,362,707 | 10,362,707 | 0.00% |

| Totals | \$21,672,189 | \$19,621,199 | \$22,076 | \$26,798 | \$21,694,265 | \$19,647,997 | 10.41% |

Debt Administration

As of June 30, 2011, the District had total outstanding general obligation debt of \$0. During the 2011-12 fiscal year, the district approved a \$4,068,000 bond issue via the Qualified Zone Academy Bond program offered through ARRA for the elementary renovation project. This project is amortized over eighteen years at near zero percent interest.

In June, 2015, the district approved a \$4.5 million loan to complete an Energy ESCO project at the Middle/High School which was in conjunction with a PEDA grant in the awarded amount of \$500,000. In September, 2017, the district refinanced this loan to a bond for savings.

In December, 2019, the board approved a Tran note with First National Bank which was paid in full at end of school year.

In November, 2021, the Board approved a Bond to offset an ESCO project for both buildings. The District went out on RFP for ESCO projects in Spring, 2021. The project includes replacement of HVAC, installation of bipolar ionization, upgrades/replacement of freezers, stadium lights, and other improvements. The total cost is \$9,724,323. Many of these improvements are being funded through the CARES Act. ESSER II: \$2,747,879; ARP ESSER: \$3,904,644; Cafeteria Fund: \$104,288; Bond \$2,967,512.

Other obligations include accrued vacation pay and sick leave for specific employees of the District, pension and other post-employment benefits. More detailed information about our long-term liabilities is included in the financial statements. (See Table A-10.) The following provides a summary of our Long-Term Liabilities:

Table A-10 Long-Term Liabilities For Years Ended June 30, 2020 and 2021

| | Year Ending | | | ear Ending |] | Increase | % |

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

A major financial issue facing the District is the funding of the district contractual obligations, specifically salaries and benefits for district staff. Another growing concern is tuition cost to charter cyber schools. The cost for cyber tuition in 2018-19 was a 43% increase to cost in 2017-18 and costs continue to increase. Our increase in cost from 2019-20 to the 2020-21 school year was 7.2%. We

have implemented our own virtual instructional platform and during the 2021-22 school year we had minimal increase to our Charter Cyber tuition costs. We will continue to offer the virtual program with the hopes of students returning to the district's platform in turn reducing this tuition cost.

The Collective Bargaining agreement with the Shamokin Area Educational Association and the Act 93 agreement will expire June 20, 2023. Negotiations have begun with the SAEA and the school board has agreed upon a three year Act 93 agreement. The AFSCME agreement was settled prior to July 1, 2022 with a three year agreement. Majority of agreements included salary increases and benefit changes. All eligible staff participate in the Central Susquehanna Regional Health Care Trust administered through the CSIU. The annual cost per enrollee for the medical insurance program is based on a tier rate of individual and dependent enrollment. The members of SAEA and AFSCME are enrolled in a high deductible high quality plan at the IRS minimum. The ACT 93 membership will also be enrolled in the QHDHP effective July 1, 2023. The single deductible set by the IRS is currently \$1500 but may change based upon IRS guidelines annually on January 1 of current year.

The tiers for 2022-23 annual cost are Single \$9564 to the highest cost tier of Family \$26,760. The tiers establish a potential liability and difficulty in budgeting as employees move from single to two party or family coverage. Looking back to the year 2015-16 the rate of increase was 5.5%. It is projected for the 2023-24 school year to increase by 9.3% per tier level. The rates of increase are based upon claims over a period of time. These increases vary and are not predictable.

A cost savings to the district has been the move from the healthcare plan PPO \$0 deductible to the QHDP at the IRS minimum for members of SAEA and AFSCME and Act 93. The district is also contributing to a Health Savings Plan for eligible employees. This contribution is currently at 50% for AFSCME employees, 40% for the SAEA employees, and 100% for Act 93. The intent of the School Board is to decrease the H S A contribution through out the upcoming school years to reflect 50% or lower.

The SAEA retirement incentive of \$6,000 for 5 years was deleted from the renewal of the contract in 19-20 for professional staff. Those retiring in 18-19 and prior school years were eligible for this incentive. The district anticipates its final payment to these HRA's in the year 2023-2024. Currently we have two retired administrators with contractual obligations to post retirement benefits for health care insurance for ten years but if retiree turn 65 years of age prior to the full ten years then this is termed.

Our special education, alternative education and most notable, the cyber charter school population appears to be increasing proportionately year after year. As a result, Shamokin Area School District expenses for these programs have increased each school year. The majority of these expenses are out of our control. For fiscal year 2009-10, the district spent \$684,817.20 for cyber charter schools which also was \$451,817.20 over budget. In the chart below one can see how our costs have increased annually along with enrollments. Enrollments change throughout the school year as student transition to and from schools due to residential relocation or selection of school. In 2019-20, we exceeded the \$2 million expenditure level. The district anticipates the cyber school cost for 2021-22 to exceed its prior school year. The district has researched alternative programs for these students to participate in that would decrease the cost. One such program is offering online courses. Our district has implemented programs and has contacted families regarding our 'cyber' option. The cost of these programs is at a much lower rate than the tuition rate of a cyber school and do reflect a savings to the district. Unfortunately, we have not had as many families returning to the district. The district will continue to offer the online courses as an alternate to charter/cyber school. The district is calling this program SPEAR. Even with this alternative, the most recent years have shown the total cost to the cyber/charter schools to have increased. The year 2021-22 has been our best year in controlling this cost. Due to a court case the tuition rate paid to these schools is now based upon budgeted costs

as oppose to actual costs. The actual costs determine the district's tuition rate that the district may charge to non-resident students. Due to this court ruling, the rate of tuition being invoiced by the charter/cyber schools is in excess of the district's actual tuition rate. The charter/cyber school tuition rate is above the approved school district tuition rate. There have been bills introduced at the state level to address the funding inequities, however movement has been limited. These underfunded mandates have challenged the district to face many budgeting issues.

Our special education population has increased to 22% which in turn increases cost to provide services to these students. Special education is mandated and is underfunded.

In recent years, the School Board Members have used the general fund balance to balance our annual budgets. Unfortunately, the general fund balance will not be able to continue this practice and decisions of curtailing or eliminating programs will need to be addressed. The 2021-22 and 2022-23 budgets were submitted with a deficit. The District has received advances to cover payroll and debt payments from PDE for their Basic Education Fund Subsidy.

Our school district must also be aware of enrollment fluctuations and changes at the local non-public schools. Depending on the future success of their initiatives, it may cause some parents to enroll their children in the district. Depending on the actual influx of children, this situation may present some challenges, both physically and financially for the district in the future years. At this time, we have seen some enrollment changes but none that have presented a physical space concern.

Prior to the end of 2015-2016, Northwestern Academy closed its doors (May 2016). Providing instruction at Northwestern Academy has seen its challenges. A decision was made to provide special education instruction in 1213 and with the addition of regular education in 1314. At that time, enrollment numbers were steady. These enrollment numbers declined since 1213 which made it difficult to project tuition revenue and the needs of instructional staff. At the start of the 2015-16 school year several buildings at Northwestern were closed and the district decreased staff. However, in December 2015 additional closures took place requiring the district to terminate additional staff. Enrollment declined drastically and the cost of the rental/lease per student ADM increased even more making it extremely costly. Though the district does invoice the home districts of costs, school code does limit what can be charged for regular education tuition. One concern of the invoice was whether or not a rental charge could be placed upon the District. Prior state audits have stated the rental cost could not be charged but in a court hearing the funds that were in escrow due to a conflict in opinion was ordered to be released to Northwestern. Other items of concern between Shamokin Area School District and Northwestern Human Services are Wards of state tuition reimbursement for years prior to 2008-09, regular education tuition portion of the special education students during 2012-13, and outstanding payments from home school districts of invoices primarily for lease rental costs. In the initial agreement with Northwestern, Shamokin Area School District was to act as a pass through of the funds between school districts of enrolled students and Northwestern which limited the liability to the district. These matters are currently being litigated. A recent court order established the District to continue to invoice the School District's with unpaid balances and to forward balances due to Northwestern minus the 7% administrative fee for Shamokin Area School District.

Upon Northwestern's closure, the District became responsible for providing educational services to a new facility called Coal Township Youth Academy which houses court placed youth. This facility began accepting students in January, 2018. The Facility can house a maximum of 32 students. Due to the low enrollment numbers, the cost to the district exceeds the amount that we are limited to invoice the home districts by school code. This facility closed at end of 2018-19 school year. The facility is now ran by DTA and the educational services are provided by the CSIU. Services in which the CSIU are unable to provide are the responsibility of the district. Currently the school district provides ELL support when needed. The Home Districts are invoiced for these services.

The District expects its retirement contribution on behalf of its employees to the Pennsylvania School Employees Retirement System (PSERS) to continue increasing in the future. House Bill 2497 was passed on October 14, 2010. This legislation addressed in part, the anticipated increases in PSERS. Specifically, for 2011-12, the employer contribution rate is 8.65%. For 2012-13 the rate is established at 12.36% which would have been 28.71% without this legislation. The rate for 2013-14 was 16.93% and continued to increase. There also were changes to the plan for new employees related to retirement age, multiplier, and the vesting period. Legislation is still addressing these issues. The annual increases present a significant funding issue for the Commonwealth of Pennsylvania as well as local school districts. In 2019-20 the rate was 34.29%, and for 2020-21 the rate was 34.51%. For the upcoming school year, there is a reduction. It is set for 34%. With this said for every \$1.00 the district pays in salary, one must also add the benefit costs of retirement, social security, unemployment, and workers compensation. The District does receive a prorated subsidy reimbursement for the retirement and social security from the state which has been historically greater than 50% of the actual cost to the district. (Table A-12 PSERS rates)

The district was approved for a \$500,000 PEDA grant to focus on energy savings by updating/replacing HVAC system at High School. This project began in the summer of 2015 and it is anticipated to be completed in the summer of 2016. The energy savings will be applied to the cost of financing a project. This project was financed at \$4.5 million. It is anticipated over the 20 years that an energy savings of at least \$2 million will be seen by the district. This project was just phase 1 of several phases. The District began phase 2 of the improvements/replacements of HVAC systems and other electronic components in the District during the spring of 2021. The District announced Requests for Proposals for this project. In addition, a stakeholders committee was formed with community members to discuss the needs of the district and to review the proposals. The Cares Act ESSER II and ARP ESSER funds are being used to offset the total cost of phase 2. Many of the improvements will assist with mitigation of COVID-19 and other germs that are airborne.

The district is projecting an operating deficit in the range of \$3,000,000 - \$5,000,000; the actual budget figure from 2020-2021 was \$443,652. However, during the 2021-22 school year we had an excess which was primarily due to federal funds. The federal funds through ESSER will end in 2024 and many of the expenditures that were offset by federal funds will need to be reviewed and discussed. This level of expenditures may not be maintained. A result of depleting fund balance and becoming dependent upon the state will begin an accumulated debt with PDE. Personnel, tuition, need for its own virtual learning option, and legal issues have contributed to the estimated increase in the deficit. In 13-14, 14-15 and 15-16, the district was able to keep their expenses within the revenue collected and not have a high need to use the fund balance to budget. To accommodate the shortfall between our expenses and revenue, the deficit of was applied to the general fund balance. The 2021-22 excess has increased the fund balance to \$2,448,706. Act 48 of 2002 prohibited districts from raising taxes if their fund balance exceeded eight percent of their projected expenditures. Thus the district has been able to raise taxes over the past several years which began in 2012-13. Unfortunately, this only creates roughly \$116,000 in additional revenue for a mill increase. Although the district budgeted with an 85% rate of collection, it should be noted that property tax collection for 2021-22 exceeded its anticipated amount. Prior to Act 48, the last district tax increase was in June of 1992. The combination of not raising local real estate taxes, state funding shortfalls, maintenance of infrastructure, increase healthcare costs, increase PSERS contributions, increase special education costs, and increased cyber charter school expenditures have contributed to this current financial dilemma. The need to cut additional programs, staff and supplies may be necessary to balance the budget in future years. However, the School Board is committed to the quality of education and cutting of programs for our students is not a sound educational decision. In the recent years, several cuts have been made and the School Board continues to review the budget to find areas of savings. The District has reached out to local government officials for assistance. The District is in communication with PDE regarding their financial status.

House Bill 39 was signed into law as Act 1 of 2008. This legislation outlined rules for slot money distribution, requiring front-end voter referenda on tax shifting, mandating new school district budget practices, and requiring back end voter referenda on future real estate tax increases above an "index" and on building projects. Among other things, Act 1 is designed to provide homeowner real estate tax reductions in varying amounts. Act 1 in conjunction with the reduced state funding may continue to have many collateral consequences for school districts, including negative education program impacts, possible bond downgrade and related borrowing expense, substantial implementation expense and many diverse required actions.

During the recent time of the COVID-19 pandemic our district has additional financial concerns. These include purchasing technology for our students to become a one to one ratio, additional PPE and cleaning/sanitizing, loss of learning, and many other factors that were considered and had a financial burden as part of the resolution. Currently, the federal government has passed several acts that are providing financial support for several of the additional costs due to the pandemic. Our district is receiving a substantial amount of funding through federal funds. These funds have assisted with the additional technology purchases and PPE supplies. However, these funds are limited to specific years and have guidelines on their usage. Our district will be using a portion of these funds towards a much needed HVAC with bipolar ionization upgrades to assist with improved ventilation and mitigation of germs. Using the funds for these one-time costs will assist with lowering future debt payments. However, using these funds for items/services that need to continue brings tough decisions upon the district once the funding ends. Will the district be able to maintain/sustain current offerings without the federal funding? Is a question/concern leading into the 2024-2025 school year. Our district has a high percentage dependency upon state subsidy. state subsidy does not increase annually at a rate equal to our expenditures growth, our current financial status may double in deficit.

Table A-11
Cyber School Enrollment and Costs

| Cyber School I | Enrollment | | |

Reconciliation of Governmental Funds Balance Sheet to the Statement of Net Position As of June 30, 2022

TOTAL FUND BALANCES, GOVERNMENTAL FUNDS

\$ 3,972,250

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in the fund financial statements, but are reported in the governmental activities of the statement of net position.

| Cost of capital assets | \$ 56,831,340 | |
|--------------------------------|------------------|------------|
| Less: accumulated depreciation | (35, 159, 151) | 21,672,189 |

Deferred outflows and inflows of resources related to pension and OPEB are applicable to future periods, and therefore, are not reported in the funds:

| Deferred outflows of resources related to pensions | 6,156,285 | |
|----------------------------------------------------|-------------|-----------|
| Deferred inflows of resources related to pensions | (1,044,000) | |
| Deferred outflows of resources related to OPEB | 584,128 | |
| Deferred inflows of resources related to OPEB | (492,366) | 5,204,047 |

Long-term liabilities, including bond and notes payable, are not due and payable in the current period and are not reported as liabilities in the fund statements.

| Net Pension Liability | (34,898,000) | |
|-----------------------|--------------|--------------|
| Net OPEB Liability | (3,274,908) | |
| Bonds Payable | (7,923,000) | |
| Compensated Absences | (361,300) | (46,457,208) |

Governmental funds do not report a liability for accrued interest until due and payable; such liability is accrued on the District-Wide financial statements. (67,930)

Delinquent personal and property taxes receivables are not available soon enough to pay for the current period's expenditures and are, therefore, deferred in the funds.

3,568,826

Reconciliation of Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities
Governmental Funds
For the Year Ended June 30, 2022

Net changes in fund balances, total governmental funds

\$ 1,361,681

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.

| Depreciation expense | (649,387) |
|----------------------|-----------|
| Capital outlay | 2,701,293 |

Under the modified accrual basis of accounting used in governmental funds, revenues are not reported until they become available. In the Statement of Activities, however, revenues are recorded regardless of when financial resources are available.

345,925

Governmental funds report debt proceeds as an other financing source. The Statement of Activities treats such issuance of debt as a liability.

(2,825,000)

Governmental funds report repayment of bond and capital lease principal as an expenditure. In contrast, the Statement of Activities treats such repayments as a reduction in long term liabilities.

441,000

Pension and other post employment benefit (OPEB) expense is reported in the Statement of Activities are recognized on the accrual basis. The net pension liability and OPEB liability are adjusted for any difference between years.

| Pension activity | 8,109,735 |
|------------------|-----------|
| OPEB activity | (77,386) |

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available. This adjustment is the net change of the following balances:

Compensated absences 65,205

Change in net position of governmental activities \$ 9,473,066

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Shamokin Area School District (the District) is governed by the Shamokin Area School District Board of Education (the Board), which has responsibility and control over all activities related to public school education within the District. The District receives funding from local, state, and federal government sources and must comply with all of the requirements of these funding source entities. Board members are elected by the public and have decision-making authority, the power to designate management, the ability to significantly influence operations, and the primary accountability for fiscal matters.

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant accounting policies of the District are described below.

In June 1999, GASB approved Statement No. 34, "Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments."

The financial statements include:

- Management's Discussion and Analysis (MD&A), providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using full-accrual accounting for all of the District's activities.
- A change in the fund financial statements to focus on major funds.

A. DEFINING THE REPORTING ENTITY

The reporting entity was defined by applying the following criteria which were established by the GASB Statement No. 14, "The Financial Reporting Entity."

- (A) Financial interdependency
- (B) Selection of governing authority
- (C) Designation of management
- (D) Ability to significantly influence operations
- (E) Accountability for fiscal matters

In defining the reporting entity, all known federal program awards received by the entity have been included and have been subjected to the terms and requirements of the Single Audit Act.

In applying the above criteria, the District does not have any component units nor is the District a component unit of any other primary government.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A. DEFINING THE REPORTING ENTITY (Continued)

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts which comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent.

B. FUND ACCOUNTING

On June 15, 2010, the GASB issued GASB Statement No. 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This Statement defines the different types of fund balances that a governmental entity must use for financial reporting purposes. GASB 54 establishes criteria for classifying fund balances into specifically defined classifications that should be based on hierarchy that reflects the extent to which the government is bound to honor constraints on how those funds can be spent.

Established classifications are as follows:

Nonexpendable – Amounts that cannot be spent because they are either in a nonspendable form or are legally or contractually required to be maintained intact.

Restricted – Amounts constrained to be used for a specific purpose stipulated by constitution, external resource providers or through enabling legislation.

Committed – Amounts constrained to be used for a specific purpose determined by a formal action of the School District Board of Directors (the District's highest level of decision-making authority).

Assigned – Amounts intended to be used for a specific purpose by the finance committee or an individual authorized by the governing body.

Unassigned – Residual amounts available for any purpose not contained in other classifications.

Order of Fund Balance Spending Policy

The District's policy is to apply expenditures against nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of the fiscal year by adjusting entries.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. FUND ACCOUNTING (Continued)

First, nonspendable fund balances are determined. Then, restricted fund balances for the non-General funds are classified as restricted fund balance.

It is possible for the non-General funds to have negative unassigned fund balance when nonspendable amounts plus the restricted fund balances for specific purpose amounts exceed the positive fund balance for the non-General fund.

| | | | | Student | | | | | | Total |
|--------------------|-----|------------|----|--------------|------|-------------|-----|---------------|----|------------|
| | | | S | Sponsored | Capi | tal Reserve | Сар | ital Projects | Go | vernmental |
| Fund Balance | Gei | neral Fund | A | ctivity Fund | | Fund | | Fund | | Funds |
| Nonspendable | \$ | - | \$ | - | \$ | - | \$ | - | 9 | - |
| Restricted | | - | | - | | 486,729 | | 819,539 | | 1,306,268 |
| Committed | | - | | - | | - | | - | | - |
| Assigned | | 16,874 | | 217,276 | | - | | _ | | 234,150 |
| Unassigned | | 2,431,832 | | - | | - | | - | | 2,431,832 |
| TOTAL FUND BALANCE | \$ | 2,448,706 | \$ | 217,276 | \$ | 486,729 | \$ | 819,539 | \$ | 3,972,250 |

C. BASIS OF PRESENTATION

The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities provide information about the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each business-type activity of the District and for each function of the District's governmental activities.

Direct Expenses are those that are clearly identifiable with a specific program.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. BASIS OF PRESENTATION (Continued)

- Program revenues include 1) charges to students or recipients who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function.
- Taxes and other items not properly included among program revenues are reported as general revenues.

The effect of interfund activity has been removed from these statements.

Proprietary fund operating revenues, such as charges for services, result from transactions associated with the fund's principal activity in which each party receives and gives up essentially equal values. Non-operating revenues, such as investment earnings, result from transactions in which the parties do not exchange equal values. Revenues generated by ancillary activities are also reported as non-operating revenues.

The statement of net position presents the District's non-fiduciary assets and liabilities, with the difference reported as net position. Net Position is reported in three categories:

- Net Investment in Capital Assets Consists of capital assets, net of accumulated depreciation, and reduced by outstanding balances of bonds, notes, and other debt attributable to the acquisition, construction or improvement of those assets.
- Restricted Net Position Results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions of enabling legislation.
- Unrestricted Net Position Consists of net position not meeting the definition of the two
 preceding categories. Unrestricted net position often has constraints on resources
 imposed by management which can be removed or modified.

Fund Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. All individual governmental funds are considered to be major funds and are reported as separate columns in the governmental fund financial statements.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. BASIS OF PRESENTATION (Continued)

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenues and expenditures. Separate statements are presented for governmental funds, proprietary funds and fiduciary fund categories. The emphasis of fund financial statements is on major funds, each displayed in a separate column.

A fund is considered to be major if it is the primary operating fund of the District or meets the following criteria:

- Total assets, liabilities, revenues or expenditures/expenses of that individual governmental fund or proprietary fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental or enterprise funds combined

At its discretion, the District may designate any fund not meeting the above criteria to be reported as major funds. All funds not meeting the above criteria would be reported as "non-major funds" in the fund financial statements. Fiduciary funds are aggregated and reported by fund type.

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

Activity Funds - These funds are set up in accordance with Section 511 of the PA School Code for student sponsored school organizations and publications which do not meet the criteria to be reported as custodial funds per GASB Statement No. 84.

Capital Reserve and Capital Projects Funds – These funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities, other than those financed by proprietary and trust funds.

The District reports the following major proprietary fund:

Food Service Fund – The Food Service Fund is used to account for all financial transactions related to the food service operation within the District.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District reports the following type of fiduciary funds:

Trust Funds – The Trust Funds have been established by citizens for the purpose of providing scholarships and other funding for qualifying students of the District, as well as employee OPEB. The trust agreements designate the District to establish committees to make annual recipient selections based on established criteria.

D. BASIS OF ACCOUNTING

The district-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if they are collected within sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities are reported as other financing sources.

Expenditure-driven grants are recognized as revenues when the qualifying expenditures have been incurred and all other grant requirements have been met. Under the terms of grant agreements, the District funds certain programs by a combination of grants and general revenues. Therefore, when program expenses are incurred there is both restricted and unrestricted net position available to finance the program. The District applies grant resources to such programs before using general revenues.

All business-type activities and enterprise funds of the district follow FASB Statements and Interpretations on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

E. BUDGETS AND BUDGETARY ACCOUNTING

The District prepares a budget for the General Fund as required by the Commonwealth of Pennsylvania Public School Code. Budgets are not used for any other funds of the District. The District follows the following procedures in establishing the budgetary data reflected in the financial statements.

- An operating budget is adopted prior to the beginning of each year for the General Fund on a modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.
- The Pennsylvania School Code dictates specific procedures relative to adoption of the School District's budget and reporting of its financial statements, specifically:
- The School District, before levying annual school taxes, is required to prepare an operating budget for the succeeding fiscal year.
- The School District is required to publish notice by advertisement, at least once in two
 newspapers of general circulation in the municipality in which it is located, and within fifteen
 days of final action, that the proposed budget has been prepared and is available for public
 inspection at the administrative office of the School District.
- Notice that public hearing will be held on the proposed operating budget must be included in the advertisement; such hearings are required to be scheduled at least ten days prior to when final action on adoption is taken by the Board.

Legal budgetary control is maintained at the sub-function/major object level. The Board of School Directors may make transfers of funds appropriated to any particular item of expenditure by legislative action in accordance with the Pennsylvania School Code. Management may amend the budget at the sub-function/sub-object level without Board approval. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

In order to preserve a portion of an appropriation for which an expenditure has been committed by a purchase order, contract or other form of commitment, an encumbrance is recorded. Encumbrances outstanding at year end, if any, are reported in the fund financial statements as reservations of fund balances.

Included in the General Fund budget are program budgets as prescribed by the federal and state agencies funding program. These budgets are approved on a program by program basis by the federal and state funding agencies.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. CASH AND INVESTMENTS

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments with a maturity of one year or less at the time of purchase are recorded at cost or amortized cost. Those with a maturity of greater than one year are reported at fair value. Changes in the fair value of investments are recorded as investment income.

G. INVENTORY

Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and are also reported as part of the nonspendable fund balance as they do not constitute "available spendable resources." These inventories are stated at cost.

Inventories of the proprietary funds are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost. Surplus commodities are stated at standard costs, as determined by the Department of Agriculture. In the financial statements, commodities received are recorded as deferred revenue until consumed.

H. CAPITAL ASSETS

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$1,500. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. CAPITAL ASSETS (Continued)

Depreciation is computed using the straight-line method over the following useful lives:

| Description | Useful Life |
|--------------------------|-----------------|
| Land | Not Depreciated |
| Land Improvement | 20 Years |
| Buildings & Improvements | 15-30 Years |
| Furniture & Equipment | 5-15 Years |
| Vehicles | 3-15 Year |

COMPENSATED ABSENCES

Compensated absences are those for which employees receive pay. A liability is recorded through the use of estimates, which apply historical date to current factors. The District maintains records of unused absences and applies current and/or contracted compensation rates to the various types of compensated absences. Sick leave is recorded using the termination payment method, which has no current maximum per employee. The District allows only restricted sabbatical leave and therefore, has no recorded liability in advance of the sabbatical.

J. RESTRICTED ASSETS

Restricted assets are cash and cash equivalents whose use is limited by legal requirements such as a bond indenture. Restricted assets are reported only in the District-wide financial statements.

K. FUND EQUITY

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a restricted purpose.

L. NET POSITION

Net position represents the difference between assets and liabilities in the District-wide financial statements. Net assets invested in capital assets consists of capital position, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

M. FOOD SERVICE FUND-UNALLOCATED COSTS

Previous to fiscal year 2019, the District did not attempt to allocate "Building-Wide Costs" to the Food Service Fund (no facilities rental expense). Thus, General Fund expenditures (utilities, janitorial services, insurance, etc.) which partially benefit the Food Service Fund were not proportionately recognized. The District currently charges janitorial services to the Fund based on hours worked and electricity based on actual watts.

N. SUBSEQUENT EVENTS

The District has evaluated subsequent events through March 30, 2023, which is the date at which the financial statements were available to be issued.

O. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

P. TAXES RECEIVABLE AND INTERGOVERNMENTAL RECEIVABLES

Taxes receivable are reported net an allowance for uncollectible balances. Intergovernmental receivables include amounts due from the state and federal governments for various grants and subsidies.

Q. INTERFUND ACTIVITY

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds.

Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

R. DEFERRED OUTFLOWS/ INFLOWS OF RESOURCES

In June 2011, the GASB issued Statement 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position." GASB 63 identifies net position, rather than net assets, as the residual of all other elements presented in a statement of financial position. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2011. This change was incorporated in the District's financial statements for the year ended June 30, 2013.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

R. DEFERRED OUTFLOWS/ INFLOWS OF RESOURCES (Continued)

Effective July 1, 2013 the District implemented GASB 65, "Items Previously Reported as Assets and Liabilities." This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expenditure) until then. The District has deferred outflows of resources in its government-wide statement of net position relating to the District's PSERS pension liability and OPEB liability in the governmental activities. The District had no deferred outflows of resources in its governmental funds balance sheet.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The District has deferred inflows of resources in its government wide statement of net position relating to the District's PSERS pension liability and the OPEB liability in the governmental activities.

The District has one item that qualifies as deferred inflows of resources in its governmental funds balance sheet, the deferred tax collections. The portion of the net tax receivable estimated to be collectible, which was measurable and available within the 60 days, was recognized as revenue; the balance of the net tax receivable is deferred in the fund financial statements.

S. LONG-TERM LIABILITIES

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the statements of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method in most instances. In the prior years, the District made the decision to recognize the full non-material amount in the financial statements. Debt issuance costs are recognized as an expense in the period incurred.

In the fund financial statements, the face amount of debt issued is reported as other financing sources and the repayment of debt is reported as expenditures. Premiums received on debt issues are reported as other financing sources; discounts on debt issuances are reported as other financing uses during the current period.

T. DUE TO AND DUE FROM OTHER FUNDS

Interfund receivables and payables are the result of routine expenses paid from one fund on behalf of or properly chargeable to another fund. All such balances reflected are current and are normally liquidated within a reasonable time period.

Note to the Financial Statements June 30, 2022

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

T. DUE TO AND DUE FROM OTHER FUNDS (Continued)

In the process of aggregating data for the government-wide statement of net position and statement of activities, amounts reported as interfund activity and balances in the funds were eliminated or reclassified, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

NOTE 2 - DEPOSITS AND INVESTMENTS

A. DEPOSITS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. The deposit policy of the school district adheres to state statutes and prudent business practice. Cash equivalents are defined as short-term, highly liquid investments—that are readily convertible to known amounts of cash and include investments with original maturities of three months or less. Cash and cash equivalents consist of demand deposits at various financial institutions and cash on hand. The market values of deposits are equal to the cost of the deposits.

Under Section 440.1 of the Public School Code of 1949, as amended, the District is permitted to deposit in savings accounts or time deposits or share accounts of institutions insured by the Federal Deposit Insurance Corporation to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral as provided by law is pledged by the depository.

As of June 30, 2022, the District's cash balances for its governmental activities and business-type activities funds were \$8,138,220 and its bank balances were \$9,193,547.

Deposits of \$491,831 at June 30, 2022 are insured by the Federal Deposit Insurance Corporation (FDIC) for amounts up to \$250,000 per institution. Deposits over this amount are collateralized by a pool of eligible securities established under Act 72 of the 1971 Session of the Pennsylvania General Assembly for the protection of public depositors. The pledged securities in the pool are safe kept at correspondent banks in accounts specifically segregated for this purpose. Act 72 specifies that it is the bank's responsibility to maintain sufficient assets in the pool to collateralize adequately all public deposits greater than the \$250,000 per type of account per entity which is FDIC insured.

Note to the Financial Statements June 30, 2022

NOTE 2 - DEPOSITS AND INVESTMENTS (Continued)

B. INVESTMENTS

The investment policy of the school district adheres to state statutes and prudent business practices. The investments of the school district consist of certificates of deposit and U.S. Agency Obligations as authorized by the Board. Investments are stated at cost including accrued interest which approximates market value.

Interest Rate Risk - The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fail value losses arising from increasing interest rates. It is the practice of the District to limit its interest rate risk by investing in securities with maturity dates under one year.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Credit Risk - Under Section 4440.1 of the Public School Code of 1949, as amended, the District is permitted to invest its monies as follows:

Obligations of (1) the United States of America or any of its agencies or instrumentalities backed by the faith and credit of the United States of America, (2) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth, or (3) any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.

Concentration Risk - The District does not have a policy that would limit the amount it may invest in any one issuer.

The District has deposits in the Pennsylvania School District Liquid Asset Fund (PSDLAF), the Pennsylvania Treasurer's Invest Program for Local Government, and the Pennsylvania Local Government Investment Trust (PLGIT) as authorized by the Board. PSDLAF was established to enable school districts to pool funds for investment in instruments authorized by Section 440.1 of the Pennsylvania Public School Code of 1949, as amended. Pennsylvania Treasurer's Invest Program for Local Government insures that it will not place deposits with any single issuing institution if the largest participant's pro rata share of such deposits exceeds \$100,000, unless such deposits are secured by (1) Treasurer, federal agencies (collateralized at 102%) or (2) certificates of deposit (collateralized by 120%).

Note to the Financial Statements June 30, 2022

NOTE 2 - DEPOSITS AND INVESTMENTS (Continued)

Although not registered with the Securities and Exchange Commission and not subject to regulatory oversight, PLGIT and PSDLAF act like a money market mutual fund in that its objective is to maintain a stable net asset of \$1 per share, is rated by a nationally recognized statistical rating organization and is subject to an independent annual audit.

In June 2011, the District contributed \$347,118 to the Pennsylvania OPEB Trust. The Trust was established for Local PA Government units to pool their assets for investment to fund retiree benefits other than pensions within the meaning of the Governmental Accounting Standards Board Statements 43 and 45 (OPEB). The District's participation in the Trust is terminable by resolution of the District, subject to the terms, conditions, and restrictions of the Pennsylvania OPEB Trust Agreement and Participation Agreement. The assets of the trust are invested in a mutual fund in the US Bank. At June 30, 2022, the District's share of the trust is \$431,785, and is represented in the Statement of Fiduciary Net Position.

As of June 30, 2022, the District's investment balance by type and maturity were as follows:

| | | | | | Maturities | | |
|-----------------------|----|-----------|------|---------------|------------|----|----------|
| Investment Type | F | air Value | Less | s than 1 year | 1-5 years | 6- | 10 years |
| PA Treasurer's Invest | \$ | 161,862 | \$ | 161,862 | \$ - | \$ | - |
| PSDLAF | | 6,063 | | 6,063 | - | | - |
| OPEB Trust | | 431,785 | | 431,785 | - | | - |
| | \$ | 599,710 | \$ | 599,710 | \$ - | \$ | - |

As of June 30, 2022, the District had the following deposits (carrying value):

| | Quoted Prices in | | | | | | | | |
|---------------------------------------|--------------------|---------|-----|---------------|------------|-------------|-----------------|---|--|
| | Fair Value | | | tive Markets | Signific | cant Other | Significant | | |

| Bond Series of 2021 | 0.450% | | 2,825,000 | \$ | - 5,539,000 | \$ 2,825,000 2,825,000 | \$ | - 441,000 | \$ 2,825,000 7,923,000 |

Long-Term Debt Obligations

General Obligation Note Series A of 2011

On November 3, 2011, the District, through the Pennsylvania State Public School Building Authority (Qualified Zone Academy Bonds (QZAB) - Direct Subsidy Bonds) issued a General Obligation Note Series A of 2011 in the amount of \$4,068,000 at a fixed interest rate of 5.138%. The proceeds of the issue are to be used to complete capital renovations and to pay issuance costs. Annual installments, as set forth below, are required to provide for payment of principal and interest through September 2029. Under the QZAB program the District will receive 92.80% reimbursement of interest paid on the Note in the form of a Federal reimbursement. The balance as of June 30, 2022 was \$1,808,000.

General Obligation Bonds, Series of 2017

In September 2017, the District issued the General Obligation Bonds, Series of 2017, in the aggregate principal amount of \$4,285,000 at variable interest rates due semi-annually and principal due annually. The proceeds of the bonds were used to currently refund the District's outstanding General Obligation Note, Series of 2015 and for payment of the costs of issuing the Bonds. The balance as of June 30, 2022 was \$3,290,000.

Note to the Financial Statements June 30, 2022

NOTE 6 - LONG-TERM LIABILITIES (Continued)

In October 2021, the District issued the General Obligation Bonds, Series of 2021, in the aggregate principal amount of \$2,825,000 at variable interest rates due semi-annually and principal due annually. The proceeds of the bonds were used to fund District capital improvements. The balance as of June 30, 2022 was \$2,825,000.

An analysis of debt service requirements to maturity on these obligations is as follows:

| Years Ending | | | | 1 | Γotal Debt | |
|---------------------|-----------|-----------|-----------------|---------|------------|--|
| June 30, | Principal | | Interest | Service | | |
| | | | | | | |
| 2023 | \$ | 451,000 | \$ 402,865 | \$ | 853,865 | |
| 2024 | | 456,000 | 398,365 | | 854,365 | |
| 2025 | | 461,000 | 393,765 | | 854,765 | |
| 2026 | | 466,000 | 389,040 | | 855,040 | |
| 2027 | | 471,000 | 383,915 | | 854,915 | |
| 2028 - 2032 | | 2,023,000 | 1,298,425 | | 3,321,425 | |
| 2033 - 2037 | | 1,630,000 | 492,750 | | 2,122,750 | |
| 2038 - 2042 | | 1,965,000 | 203,100 | | 2,168,100 | |
| Totals | \$ | 7,923,000 | \$ 3,962,226 | \$ | 11,885,226 | |

COMPENSATED ABSENCES

Vacation - District employees who are required to work on a twelve-month schedule are credited with vacation at rates which vary with length of service or job classification. Vacation may be taken or accumulated within certain limits and is paid prior to retirement or termination at the employee's current rate of pay. At June 30, 2022, the estimated liability for compensated absences related to vacation payable was \$112,721.

Sick Leave and Personal Leave - Most District employees are credited with ten sick days and three personal leave days annually. Upon retirement, employees received payment for the unused portion of their sick leave and personal leave based on years of service and on rates specified by contracts or agreements. At June 30, 2022, the estimated liability for compensated absences related to sick and personal leave was \$140,580.

Early Retirement Incentive - The District offers an early retirement incentive to professional employees who retire having at least ten complete years of service with the District and at least thirty complete years as a professional employee in public schools of the Commonwealth of Pennsylvania. At June 30, 2022, the estimated liability for compensated absences related to outstanding early retirement incentives was \$108,000.

Note to the Financial Statements June 30, 2022

NOTE 6 - LONG-TERM LIABILITIES (Continued)

The accrued benefit to be provided from unused sick, personal, and vacation days and early retirement incentives was estimated to be \$361,301 as of June 30, 2022, and was reflected in the statement of net position as "compensated absences." This amount reported in the statement of net position represents the amount that would have been committed by the District under the terms of the various collective bargaining agreements computed as if all eligible District employees had retired effective July 1, 2021.

NOTE 7 - PENSION PLAN

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deduction from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan description

PSERS is a governmental cost-sharing multi-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania.

The Administrative staff of PSERS administers the plan. The control and management of PSERS, including the investment of its assets, is vested in the Board of Trustees (Board). The board consists of 15 members: the Secretary of Education, ex efficio; the State Treasurer, ex officio; two Senators; two members of the House of Representatives; the executive secretary of the Pennsylvania School Boards Association, ex officio; two Governor appointees, at least one of whom shall not be a school employee or an officer or employee of the State of Pennsylvania; three who are elected by the active professional members of PSERS from among their number; one who is elected by annuitants from among their number; one who is elected by members of Pennsylvania public school boards from among their number. The chairman of the Board is elected by the Board members. Each ex officio member of the Board and each legislative member of the Board may appoint a duly authorized designee to act in their stead.

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

PSERS was established on July 18, 1917 under the provisions of Pamphlet Law, No. 343. Benefit payments to members and contribution provision by employers and employees are specified in the Pennsylvania Public School Employees' Retirement Code. The Commonwealth General Assembly has the authority to amend the benefit terms of the PSERS by passing a bill in the Senate and House of Representatives and sending the bills to the Governor for approval. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for the disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

All members are fully vested in their individual balance in the Members' Saving Account. All non-vested members may receive a refund of their individual balance of member contributions and interest for the Members' Savings Account upon termination of public-school employment.

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

Vested members who enrolled prior to July 1, 2011 may elect to receive a return of their accumulated contributions and interest upon their retirement which results in a reduced monthly annuity. Vested Class T-E and T-F members cannot withdraw their accumulated contributions and interest from the Members' Savings Account upon their retirement.

Member Contribution

Member contribution rates are set by law (redefined with the provisions of Act 9 of 2001 and Act 120) and are dependent upon membership class. Member contribution rate are as follows:

Active member who joined the System prior to July 22, 1983, contribute at 5.25% (Members Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F Contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contribution:

The District's contractually required contribution rate for fiscal year ended June 30, 2022 was 33.99 % of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the District were \$4,248,285 for the year ended June 30, 2022.

2. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the District reported a liability of \$34,898,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021 and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2020 to June 30, 2021.

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

The District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one- year reported covered payroll. As of June 30, 2022, the District's proportion was 0.0850 percent, which was a decrease of .0019 percent from its proportion measured as of June 30, 2021.

For the year ended June 30, 2022, the District recognized pension expense adjustment of \$8,110,651.

At June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following:

| | Deferred | Deferred | | |
|---------------------------------------------------|-------------|-------------|--|--|
| | Outflows of | Inflows of | | |
| | Resources | Resources | | |
| Difference between expected and actual experience | \$ 26,000 | \$ 458,000 | | |
| Changes in assumptions | 1,693,000 | | | |
| Net difference between projected and actual | | | | |
| investment earnings | | 5,555,000 | | |
| Changes in proportion | 189,000 | 1,044,000 | | |
| Difference between employer contributions and | | | | |
| proportionate share of total contributions | - | - | | |
| Contributions subsequent to the measurement date | 4,248,285 | | | |
| | \$6,156,285 | \$7,057,000 | | |

\$4,248,285 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as reduction of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ended June 30: | |
|---------------------|-------------------|
| 2022 | \$ (1,366,000) |
| 2023 | (1,085,000) |
| 2024 | (904,000) |
| 2025 | (1,795,000) |
| Thereafter | - |

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

3. Changes in Actuarial Assumptions

The total pension liability as of June 30, 2021 was determined by rolling forward the system's total pension liability as of June 30, 2020 to June 30, 2021 using the following actuarial assumptions applied to all periods included in the measurement.

- Valuation Date June 30, 2020
- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 7.00%, includes inflation at 2.50%.
- Salary growth Effective average of 4.50%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- The discount rate used to measure the Total Pension Liability decreased from 7.25% as of June 30, 2020 to 7.00% as of June 30, 2021.
- Demographic and economic assumptions approved by the Board for use effective with the June 30, 2021 actuarial valuation:
 - Salary growth rate decreased from 5.00% to 4.50%.
 - Real wage growth and merit or seniority increases (components for salary growth) decreased from 2.75% and 2.25% to 2.50% and 2.00%, respectively.
 - Mortality rates Previously based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. Effective with the June 30, 2021 actuarial valuation, mortality rates are based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.

The actuarial assumptions used in the June 30, 2021 valuation were based on the experience study that was performed for the five-year period ending June 30, 2020.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

| | | Long-Term Expected |
|----------------------|------------|-----------------------|
| | Target | Real Rate of |
| Asset Class | Allocation | Return |
| | | |
| Global public equity | 27% | 5.2% |
| Private equity | 12% | 7.3% |
| Fixed Income | 35% | 1.8% |
| Commodities | 10% | 2.0% |
| Absolute return | 8% | 3.1% |
| Infrastructure/MLPs | 8% | 5.1% |
| Real estate | 10% | 4.7% |
| Cash | 3% | 0.1% |
| Leverage | 13% | 0.1% |
| | 100% | |

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount rate

The discount rate used to measure the total pension liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.00%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

| | Current | | | | | |
|-------------------------------------------------------------|---------|------------------|------------------------|------------|----------------------|------------|
| | 19 | % Decrease 6.00% | se Discount Rate 7.00% | | 1% Increase 8.00% | |
| District's Proportionate Share of the Net Pension Liability | \$ | 45,805,000 | \$ | 34,898,000 | \$ | 25,698,000 |

Note to the Financial Statements June 30, 2022

NOTE 7 – PENSION PLAN (Continued)

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.us.

NOTE 8- OTHER POSTEMPLOYMENT BENEFITS

PSERS Healthcare Insurance Premium Assistance Plan

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Health Insurance Premium Assistance Program

The System provides Premium Assistance which, is a governmental cost sharing, multiple-employer other postemployment benefit plan (OPEB) for all eligible retirees who qualify and elect to participate. Employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Effective January 1, 2002 under the provisions of Act 9 of 2001, participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2020 there were no assumed future benefit increases to participating eligible retirees.

Premium Assistance Eligibility Criteria

Retirees of the System can participate in the Premium Assistance program if they satisfy the following criteria:

- Have 24 ½ or more years of service, or
- Are a disability retiree, or
- Have 15 or more years of service and retired after reaching superannuation age, and
- Participate in the HOP or employer-sponsored health insurance program.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POSTEMPLOYMENT BENEFITS (Continued)

PSERS Healthcare Insurance Premium Assistance Plan (Continued)

Pension Plan description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits Provided:

Participating eligible retirees are entitled to receive premium assistance payments equal to the lesser of \$100 per month or their out-of-pocket monthly health insurance premium. To receive premium assistance, eligible retirees must obtain their health insurance through either their school employer or the PSERS' Health Options Program. As of June 30, 2021, there were no assumed future benefit increases to participating eligible retirees.

Employer Contributions:

The District's contractually required contribution rate for the fiscal year ended June 30, 2022 was 0.080% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the OPEB plan from the District were \$106,971 for the year ended June 30, 2022.

2. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

As of June 30, 2022, the District reported a liability of \$2,013,000 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2021, and the total OPEB liability used to calculate the net OPEB liability was determined by rolling forward the System's total OPEB liability as of June 30, 2020 to June 30, 2021. The District's proportion of the net OPEB liability was calculated utilizing the employer's one-year reported covered payroll as it related to the total one- year reported covered payroll. As of June 30, 2022, the District's proportion was 0.0849 percent, which was a decrease of 0.0020 percent from its proportion measured as of June 30, 2021.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

PSERS Healthcare Insurance Premium Assistance Plan (Continued)

2. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB (Continued)

For the year ended June 30, 2022, the District recognized OPEB expense of \$13,477. As of June 30, 2022, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | ed Outflows of esources | Deferred Inflows of Resources | |
|--------------------------------------|-----------------------------|-------------------------------|--------|
| Net Difference Between Expected and | | | |
| Actual Experience | \$ 19,000 | \$ | - |
| Changes in Assumptions | 214,000 | | 27,000 |
| Net Difference Between Projected and | | | |
| Actual Investment Earnings | 4,000 | | - |
| Changes in Proportion | 22,000 | | 60,000 |
| Contributions Subsequent to the | | | |
| Measurement Date | 106,971 | | |
| | \$ 365,971 | \$ | 87,000 |

\$106,971 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ended June 30: | |
|---------------------|--------|
| 2022 \$ | 28,000 |
| 2023 | 27,000 |
| 2024 | 41,000 |
| 2025 | 34,000 |
| 2026 | 22,000 |
| Thereafter | 21,000 |

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

PSERS Healthcare Insurance Premium Assistance Plan (Continued)

3. Actuarial Assumptions

Total OPEB Liability as of June 30, 2021, was determined by rolling forward the System's Total OPEB Liability as of June 30, 2020 to June 30, 2021 using the following actuarial assumptions, applied to all periods included in the measurement.

- Actuarial cost method Entry Age Normal level % of pay.
- Investment return 2.18% S&P 20 Year Municipal Bond Rate.
- Salary growth Effective average of 4.5%, comprised of inflation of 2.50% and 2.00% for real wage growth and for merit or seniority increases.
- Premium Assistance reimbursement is capped at \$1,200 per year.
- Assumed Healthcare cost trends were applied to retirees with less than \$1,200 in premium assistance per year.
- Mortality rates were based on a blend of 50% PubT-2010 and 50% PubG-2010 Retiree Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2020 Improvement Scale.
- Participation rate:
 - Eligible retirees will elect to participate Pre age 65 at 50%
 - Eligible retirees will elect to participate Post age 65 at 70%

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study that was performed for the five year the period ending June 30, 2015. The following assumptions were used to determine the contribution rate.

- The results of the actuarial valuation as of June 30, 2019 determined the employer contribution rate for fiscal year 2021.
- Cost Method: Amount necessary to assure solvency of Premium Assistance through the third fiscal year after the valuation date.
- Asset valuation method: Market Value.
- Participation rate: 63% of eligible retirees are assumed to elect premium assistance.
- Mortality rates were based on the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale.

Investments consist primarily of short term assets designed to protect the principal of the plan assets. The expected rate of return on OPEB plan investments was determined using the OPEB asset allocation policy and best estimates of geometric real rates of return for each asset class.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

PSERS Healthcare Insurance Premium Assistance Plan (Continued)

3. Actuarial Assumptions (Continued)

The OPEB plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Under the program, as defined in the retirement code employer contribution rates for Premium Assistance are established to provide reserves in the Health Insurance Account that are sufficient for the payment of Premium Assistance benefits for each succeeding year.

| | Target | Long-Term Expected Real Rate of |
|------------------------|------------|---------------------------------------|
| Asset Class | Allocation | Return |
| Cash | 80% | 0.03% |
| U.S. Core Fixed Income | 18% | 1.20% |
| Non-US Developed Fixed | 3% | 0.40% |
| Total | 100% | |

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2021.

Discount rate

The discount rate used to measure the Total OPEB Liability was 2.18%. Under the plan's funding policy, contributions are structured for short term funding of Premium Assistance. The funding policy sets contribution rates necessary to assure solvency of Premium Assistance through the third fiscal year after the actuarial valuation date. The Premium Assistance account is funded to establish reserves that are sufficient for the payment of Premium Assistance benefits for each succeeding year. Due to the short term funding policy, the OPEB plan's fiduciary net position was not projected to be sufficient to meet projected future benefit payments, therefore the plan is considered a "pay-as-you-go" plan. A discount rate of 2.18% which represents the S&P 20 year Municipal Bond Rate at June 30, 2021, was applied to all projected benefit payments to measure the total OPEB liability.

Sensitivity of the System Net OPEB Liability to Change in Healthcare Cost Trend Rates

Healthcare cost trends were applied to retirees receiving less than \$1,200 in annual Premium Assistance. As of June 30, 2021, retirees Premium Assistance benefits are not subject to future healthcare cost increases. The annual Premium Assistance reimbursement for qualifying retirees is capped at a maximum of \$1,200. As of June 30, 2021, 93,392 retirees were receiving the maximum amount allowed of \$1,200 per year. As of June 30, 2020, 611 members were receiving less than the maximum amount allowed of \$1,200 per year.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

PSERS Healthcare Insurance Premium Assistance Plan (Continued)

3. Actuarial Assumptions (Continued)

The actual number of retirees receiving less than the \$1,200 per year cap is a small percentage of the total population and has a minimal impact on Healthcare Cost Trends as depicted below.

The following presents the System net OPEB liability for June 30, 2021, calculated using current Healthcare cost trends as well as what the System net OPEB liability would be if it health cost trends were 1-percentage point lower or 1-percentage point higher than the current rate:

| | Current Discount | | | | | |
|----------------------------------------------------------|-------------------|-----------|------------|-----------|-------------------|-----------|
| | 1% Decrease 1.66% | | Rate 2.66% | | 1% Increase 3.66% | |
| District's Proportionate Share of the Net OPEB Liability | \$ | 2,310,000 | \$ | 2,013,000 | \$ | 1,768,000 |

Sensitivity of the District's proportionate share of the net OPEB liability to changes in the discount rate

The following presents the net OPEB liability, calculated using the discount rate of 2.66%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.66%) or 1-percentage-point higher (3.66%) than the current rate:

| | Current Healthcare | | | | | | |
|--------------------------------|--------------------|-----------|------------|-----------|-------------|-----------|--|
| | 1% Decrease | | Cost Trend | | 1% Increase | | |
| District's Proportionate Share | | | | | | | |
| of the Net OPEB Liability | \$ | 2,013,000 | \$ | 2,013,000 | \$ | 2,013,000 | |

OPEB plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.pa.gov.

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

Single-Employer Defined Benefit OPEB Plan (the "District Plan")

Plan Description

Plan Administration. The District's other post-employment benefits ("OPEB") include a single-employer defined benefit plan that is used to provide postretirement healthcare benefits for teachers and certain others who retire under the qualifications of the Pennsylvania School Employee's Retirement System. Plan provisions are established based on bargaining agreements negotiated by the District.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POSTEMPLOYMENT BENEFITS (Continued)

Single-Employer Defined Benefit OPEB Plan (the "District Plan") (Continued)

The District Plan does not issue any financial report and is not included in the report of any public employee retirement system or any other entity.

Plan Membership. As of June 30, 2022, the District Plan's membership consisted of the following:

| Active Participants | 217 |
|----------------------------|-----|
| Vested Former Participants | - |
| Retired Participants | 14_ |
| Total | 231 |

Annual Payroll of Active Participants: \$11,277,469

Benefits Provided. The plan's coverage includes medical prescription drug, and dental & vision coverage for retiree, spouse and dependents. For Administrators, the District pays 100% of the premiums until the earlier of 10 years or Medicare age. After 10 years. The member may stay on the plan by paying premiums in full until reaching Medicare age. For Teachers retired before 6/30/2006, members use their unused sick day bank until it is extinguished then continues to pay the \$100 and the rate increases for themselves and their spouses, however they cease to receive dental and vision coverage.

For *Teachers retired after 6/30/2006*, the District contributes \$6,000 per year into an HRA account to be used towards medical expenses until the earlier of 5 years or members reaching Medicare age. The member pays any remaining premiums during this period. In addition, a member who retired with 30 to 36 years of PSERS service receives a one-time payment of \$16,000 into an HRA account to be used towards medical expenses. For *Support Staff*, the member must be 100% of the premiums.

Contributions. The contribution requirements of the plan members and the District established and may be amended by the School Board of Directors. The plan is funded on a pay-as-you-go basis, i.e. premiums are paid annually to fund the healthcare benefits provided to current retirees, primarily through annual appropriations from the General Fund. Retiree contribution rates and amount vary depending on classification and years of service with the District; they are assumed to increase at the same rate as the Health Care Cost Trend Rate. The contribution requirements of retirees are established and may be amended by the School Board. The costs of administering the OPEB plan are paid by the District.

Investments

Method Used to Value Investments. Investments in the District Plan are reported at fair value. Investments that do not have an established market value are reported at estimated fair value.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

Single-Employer Defined Benefit OPEB Plan (the "District Plan") (Continued)

Investment Policy. The District Plan's policy in regard to the allocation of invested assets is established and may be amended by the School Board. It is the policy of the School Board to pursue an investment strategy that reduces risk though prudent diversification of the portfolio across a broad selection of distinct asset classes. The District Plan's investment policy discourages the use of cash equivalent, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans.

Rate of Return. The long-term expected rate of return on OPEB plan investments is 6.50% and the municipal bond rate is 2.18% based on the S&P Municipal Bond 20 year High Grade Rate Index as of June 30, 2022.

Net OPEB Liability

The components of the net OPEB liability of the District's Single-Employer Defined Benefit OPEB Plan at June 30, 2022 were as follows:

| Total OPEB Liability | \$ 1,693,693 |
|---------------------------------------------|-----------------|
| Plan Fiduciary Net Position | 431,785 |
| Net OPEB Liability | \$ 1,261,908 |
| Plan fiduciary net position as a percentage | |
| of the total OPEB liability | 25.49% |

Actuarial Assumptions and Other Inputs. The net OPEB liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 3.00%

Salary Increases 3.50% average, including inflation

Discount Rate 3.98%

Healthcare Cost Trend Rate 5.5% for 2020 through 2023. Rates gradually

decrease from 5.4% in 2024 to 4.0% in 2075

and later.

Mortality rates are assumed using the rates assumed in the PSERS defined benefit pension plan actuarial valuation with projections incorporated based on the Buck Modified 2016 projection scale to reflect mortality improvement.

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

Single-Employer Defined Benefit OPEB Plan (the "District Plan") (Continued)

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of census data as of September 2021. Due to the timing school district turnover, the data is believed to be representative of the population for the 2021-2022 school year.

The target asset allocation as of June 30, 2022 are summarized in the following table:

| Asset Class | Target Allocation |
|----------------------|-------------------|
| | |
| Domestic Equity | 21.5% |
| International Equity | 10.6% |
| Real Estate | 0.0% |
| Fixed Income | 67.9% |
| | 100.0% |

Discount Rate. The discount rate used to measure the total net OPEB liability is 4.86% based upon the expected rate of return, net of expected investment expenses. The plan's fiduciary net position is projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate.

The following presents the net OPEB liability of the District Plan, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (3.86%) or 1-percentage higher (5.86%) than the current discount rate (4.86%):

| | 1% | Decrease 3.86% | Current Discount Rate 4.86% | | 1% Increase 5.86% | |
|----------------------------------------------------------|----|-------------------|-----------------------------|-----------|----------------------|-----------|
| District's Proportionate Share of the Net OPEB Liability | \$ | 1,397,479 | \$ | 1,261,908 | \$ | 1,133,990 |

Note to the Financial Statements June 30, 2022

NOTE 8- OTHER POST-EMPLOYMENT BENEFITS (Continued)

Single-Employer Defined Benefit OPEB Plan (the "District Plan") (Continued)

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate.

The following presents the net OPEB liability of the District Plan, as well as what the District's net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage lower or one percentage higher than the current healthcare cost trend rates:

| | Current Healthcare | | | | | |
|--------------------------------|--------------------|------------|----|------------|----|------------|
| | 19 | 6 Decrease | | Cost Trend | 1 | % Increase |
| District's Proportionate Share | | | | | | |
| of the Net OPEB Liability | \$ | 1,095,094 | \$ | 1,261,908 | \$ | 1,462,743 |

OPEB Expense and Deferred Outflows of Resources Related to OPEB

For the year ended June 30, 2022, the District recognized OPEB expense of \$63,909. As of June 30, 2022 the District reported deferred outflows related to OPEB from the following sources:

| | Deferred Outflows of Resources | Deferred Inflows of Resources | |
|----------------------------------|--------------------------------------|-------------------------------|---------|
| Differences between Expected | | | |
| and Actual Experience | \$ - | \$ | 169,093 |
| Changes in Assumptions | 147,925 | | 214,192 |
| Net difference between Projected | | | |
| and Actual Earnings | 70,232 | | 22,081 |
| Total | \$ 218,157 | \$ | 405,366 |

Amounts, other than contributions subsequent to the measurement date, reported as deferred outflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ended June 30: | |
|---------------------|---------------|
| 2023 | \$ (4,930) |
| 2024 | (3,868) |
| 2025 | (3,830) |
| 2026 | 3,151 |
| 2027 | (14,407) |
| Thereafter | (163, 325) |

Note to the Financial Statements June 30, 2022

NOTE 9 - TAXES ASSESSED AND DEFERRED REVENUE

The tax on real estate for public school purposes for the year ended June 30, 2022 was 37.99 mills (\$37.99 per \$1,000) of assessed valuation as levied by the board. Assessed valuations of property are determined by Northumberland County, and the elected tax collectors are responsible for the collection. The following is a listing of the taxes assessed:

| Тах Туре | Millage/Rate |
|------------------------------|-------------------|
| Real Estate Mills | 37.99 Mills |
| Occupation Tax - Act 511 | \$200.00 / Person |
| Per Capita Tax - Act 511 | \$5.00 / Person |
| Per Capita Tax - Section 679 | \$5.00 / Person |

The following is the tax calendar showing levy date, payment periods and delinquent dates for the above listed taxes:

| Levy Date | July 1 |
|------------------------------|---------------------------|
| Discount (2%) Payment Period | July 1 to August 31 |
| Face Payment Period | September 1 to October 31 |
| Penalty (10%) Payment Period | November 1 to December 31 |
| Delinquent Date | January 1 |

Real estate taxes remaining unpaid as of December 31 are turned over to independent third parties for collection each January 1. Personal taxes remaining unpaid at that point are turned over to an appointed tax collection agency.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible was measurable and available within the 60 days, was recognized as revenue, and the balance deferred in the fund financial statements. All taxes, net of uncollectible amounts, are recognized in the period for which levied in the government-wide financial statements, regardless of when collected.

The taxes receivable net of allowance of uncollectible are summarized as follows:

| Taxes Receivable | \$4,412,717 |
|-------------------------------------------|--------------|
| Less Allowance for Uncollectable Accounts | \$ (653,379) |
| Taxes Receivable, Net | \$3,759,338 |

Note to the Financial Statements June 30, 2022

NOTE 10 - RISK MANAGEMENT

This District is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District maintains coverage from commercial insurance companies to cover these risks of loss; there have been no significant reductions in coverage from the prior year.

NOTE 11 - COMMITMENTS AND CONTINGENCIES

Grants

The District participates in federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The District is potentially liable for any expenditure which may be disallowed pursuant to the terms of these grant programs. Management is not aware of any material items of non-compliance which would result in the disallowance of program expenditures.

Litigation

Dating back to the year ended June 30, 2013, the District was in progress of its capital renovations on the Elementary School. The plumbing contractor on the project (Yannuzzi, Inc.) had requested a change order in the amount of \$\$308,630 for costs they incurred working under a directive to complete such work. The Company maintains that the work completed was not included in the scope of the original contract. The District has received a writ of summons from Yanuzzi, Inc discovery is still in progress. The District's design professional has indicated that the change order is not warranted and has no basis under the contract. Consequently, the District has rejected the change order request. The District has since added "Quad 5" into the suit as a third party; the matter is currently in written discovery. The District is responding by vigorous contest of the case therefore no accrual of liability has been made.

NHS Youth Services, Inc. seeks monetary relief involving a dispute concerning a contract for educational services between NHS Youth Services, Inc and the District. Peremptory judgment in mandamus has been granted entitling NHS Youth Services, Inc to release of certain funds held in escrow and payments in an unliquidated amount from the District. The judgment of the Court of Common Pleas has been affirmed by the Commonwealth Court.

During the normal course of business, the District is subject to numerous disputes and claims. At June 30, 2022, there were no items of pending or threatened litigation that management has not accounted for of which they feel would have a material effect on the District's financial condition.

Note to the Financial Statements June 30, 2022

NOTE 12- RELATED ORGANIZATIONS

Not included in the School District's financial statements are any Parent-Teacher Associations (PTA), Parent-Teacher Organizations (PTO) and athletic and band booster clubs. These agencies provide services to students and employees of the District, but are separate legal entities having sufficient autonomy in the management of their own affairs to distinguish them as separate from the administrative organization of the District. The District does not account for these entities as component units or joint ventures; it does not maintain an ongoing financial interest or have responsibility for these entities.

NOTE 13 - NORTHWESTERN ACADEMY ("NHS Youth Services, Inc.")

Situated within the boundaries of the Shamokin Area School District (SASD) lied a residential facility known as Northwestern Academy (Northwestern) which was owned by Northwestern Services, Inc., a private non-profit corporation. Northwestern provided services to adjudicated minors that are placed at Northwestern on a residential basis. Under the PA School Code of 1949 (School Code) Section 1306, Northwestern was an "institution for the care or training of children". As such, the School Code places certain obligations on the District with regard to the education of students placed at the institution. The District and Northwestern believed that it is in the best interest of the students residing at Northwestern to receive their education on the grounds of Northwestern.

Effective July 1, 2014, the SASD had "taken over" providing all education services including regular and special education provided at Northwestern. While a contract for the lease rental was being negotiated, the District was paying the monthly lease rental as agreed to in the 2012/2013 lease agreement which calls for an annual base rent of \$1,310,434 to be paid by the SASD to Northwestern. The SASD invoiced the home district for the actual special education costs as incurred by SASD computed on a per diem basis along with the regular education SASD per diem tuition rate plus a per diem lease rental charge. Regular education tuition invoiced to the home district included the regular SASD education per diem tuition rate, plus a per diem lease rental charge.

The SASD was servicing the special and regular education needs of Northwestern with professional staff employed by the SASD and was not utilizing sub-contracted services from neither the Central Susquehanna Intermediate Unit, nor Northwestern Academy. As of June 30, 2016 this facility has closed their doors. Intergovernmental receivables and payables remain outstanding as of June 30, 2022 relating to this entity's operations.

Upon Northwestern's closure, the District became responsible for providing educational services to a new facility called Coal Township Youth Academy which houses court placed youth. This facility began accepting students in January, 2018. The Facility can house a maximum of 32 students. Due to the low enrollment numbers, the cost to the district exceeds the amount that we are limited to invoice the home districts by school code. This facility closed at end of 2018-19 school year. The facility is now ran by DTA and the educational services are provided by the CSIU. Services in which the CSIU are unable to provide are the responsibility of the district. Currently the school district provides ELL support when needed.

Note to the Financial Statements June 30, 2022

NOTE 14 - NEW PRONOUNCEMENTS

Adopted Changes in Accounting Principles

In June 2017, the GASB issued Statement No. 87, "Leases". The District was required to adopt the provisions of Statement No. 87 for its fiscal year 2022 financial statements.

In April 2018, the GASB issued Statement No. 88, "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements". The District was required to adopt Statement No. 88 for its fiscal year 2022 financial statements.

In June 2018, the GASB issued Statement No. 89, "Accounting for Interest Cost Incurred before the End of a Construction Period". The District was required to adopt the provisions of Statement No. 89 for its fiscal year 2022 financial statements.

In January 2020, the GASB issued Statement No. 92, "Omnibus 2020." The District was required to adopt the provisions of Statement No. 92 for its fiscal year 2022 financial statements.

In March 2020, the GASB issued Statement No. 93, "Replacement of Interbank Offered Rates". The District was required to adopt the provisions of Statement No. 93 for its fiscal year 2021 financial statements, except for the requirements of paragraphs 11b, 13, and 14 which are effective for its fiscal year 2022 financial statements.

In October 2021, the GASB issued Statement No. 98, "The Annual Comprehensive Financial Report". The District was required to adopt Statement No. 98 for its fiscal year 2022 financial statements.

Pending Changes in Accounting Principles

In May 2019, the GASB issued Statement No. 91, "Conduit Debt Obligations". The District is required to adopt the provisions of Statement No. 91 for its fiscal year 2023 financial statements.

In March 2020, the GASB issued Statement No. 94, "Public-Private and Public Partnerships and Availability Payment Arrangements". The District is required to adopt the provisions of Statement No. 94 for its fiscal year 2023 financial statements.

In May 2020, the GASB issued Statement No. 96, "Subscription-Based Information Technology Arrangements". The District is required to adopt the provisions of Statement No. 96 for its fiscal year 2023 financial statements.

In June 2020, the GASB issued Statement No. 97, "Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – an amendment of GASB Statements No. 14 and No. 84, and a supersession of GASB Statement No. 32".

The District has not yet completed the various analysis required to estimate the financial statement impact of these new pronouncements.

Notes to Schedule:

Valuation date: July 1, 2021

Actuarially determined contibution rates are calculated as of June 30, two years prior to the end of the fiscal year in which contributions are reported. Methods and assumptions used to determine contribution rates:

Amortization method Closed, level percent of payroll

Asset valuation method Market value of Assets

Inflation 3.00%

Healthcare cost trend rates 5.5% in 2020 through 2023. 5.4% by 2024 down to 4.0% in 2075

Salary increases 3.50% Investment rate of return 6.50%

Retirement age Age 55 with 25 years of service, or 30 years of service (regardless of age)

REPORT OF INDEPENDENT PUBLIC ACCOUNTANT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the School Board Shamokin Area School District Coal Township, Pennsylvania

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Shamokin Area School District (the District) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated March 30, 2023.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings and Questioned Cost as item 2022-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The Shamokin Area School District's Response to Findings

The District's response to the deficiency identified in our audit is described in the accompanying Management's Corrective Action Plan. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT OF INDEPENDENT PUBLIC ACCOUNTANT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Members of the School Board Shamokin Area School District Coal Township, Pennsylvania

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Shamokin Area School District's (the District) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the Shamokin Area School District's (the "District") major federal programs for the year ended June 30, 2022. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the
 audit in order to design audit procedures that are appropriate in the circumstances and to
 test and report on internal control over compliance in accordance with the Uniform
 Guidance, but not for the purpose of expressing an opinion on the effectiveness of the
 District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

- (A.) Total amount of commodities received
- (B.) Beginning inventory at July 1, 2021
- (C.) Total amount of commodities used
- (D.) Ending inventory at June 30, 2022

Footnote 1: Federal sources included in the face of the financial statements, such as Medical Assistance Reimbursement for Administrative Claiming Program, are not required to be reported on the Schedule of Expenditures of Federal Awards.

Footnote 2: IDEA Cluster per the advisement of PDE to management has been included in local sources of revenue.

Notes to the Schedule of Expenditures of Federal Awards Year Ended June 30, 2022

1. BASIS OF PRESENTATION AND ACCOUNTING

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of Shamokin Area School District under programs of the federal government for the year ended June 30, 2022. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

The accompanying Schedule has been presented on the accrual basis of accounting. Expenditures are recorded, accordingly, when incurred rather than when paid.

The District has received noncash assistance during the year ended June 30, 2022 which is included in the Schedule of Expenditures of Federal Awards.

2. CATEGORIZATION OF EXPENDITURES

The accompanying Schedule reflects Federal expenditures for all programs which were active during the year. The categorization of expenditures included in the accompanying Schedule is based on the Catalog of Federal Domestic Assistance (CFDA). The accompanying Schedule of Expenditures of Federal Awards reflects CFDA changes issued through July 2022.

3. ADDITIONAL INFORMATION

The School District did not have any sub-recipients or pass through and funds to sub-recipients. The School District elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

4. IDENTIFICATION OF MAJOR PROGRAMS

As shown on the accompanying *Schedule of Findings and Questioned Costs*, the dollar threshold used to distinguish between type A and type B programs were seven hundred and fifty thousand (\$750,000) dollars. The District had the following major programs which were audited:

| | | | Federal |
|-----------------------------------------|------------------|----|----------------------|
| Major Program | CFDA No. | E | kpenditures |
| Title I Education Stabilization Fund | 84.010 84.425 | \$ | 967,531 2,349,705 |
| Percentage of total federal awards expe | | | 53.17% |

5. MEDICAL ASSISTANCE

Access reimbursement received under CFDA #93.778, Revenue Code 8810 are classified as fee-for-service revenues and are not recognized as federal awards for the purpose of the Schedule of Expenditures of Federal Awards.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2022

Section II – Financial Statement Findings

A. Significant Deficiency in Internal Control

Finding 2022-001 Financial Statement Adjustments and Presentation

Criteria:

An integral component of an entity's internal control over financial reporting is to reconcile and prepare all the standard and non-standard entries as part of the year-end closing process.

AU-C Section 265 entitled Communicating Internal Control Related Matters in an Audit, issued by the American Institute of Certified Public Accountants (AICPA) considers the need for significant adjusting journal entries and assistance when preparing the financial statements to be indicative of an internal control deficiency. Without assistance, the potential exists of the District's financial statements not conforming to generally accepted accounting principles (GAAP).

Condition:

Audit adjustments were required to be posted to the District's general ledger to properly reflect its financial position and financial activity for the year under audit. Although much of the information for the adjustments was provided by the District, some had not been analyzed and reconciled as adjustments and posted. The fact that these procedures were required in order for the financial statements to be properly stated constitutes a deficiency in the District's financial reporting processes.

The District was unable to provide final financial statements for entity wide statements without guidance from the auditor. In connection with the audit of the District's financial statements, management has requested that we assist in the drafting of the financial statements, required supplementary information, and related footnote disclosures. No population was tested; finding is based upon understanding and review of the yearend financial reporting system.

Cause:

While the District's internal accounting personnel have the ability to interpret and understand its financial statements, both fund and entity wide, they do not have sufficient experience in preparing those financials in accordance with GAAP.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2022

Section II – Financial Statement Findings (Continued)

Finding 2022-001 Financial Statement Adjustments and Presentation (Continued)

Effect: There is a greater opportunity for error in financial reporting as the District's

management has determined it is more cost-beneficial to utilize services of auditors to assist in drafting financial statements, as opposed to hiring a

professional accountant trained in such matters.

Questioned Costs: Unknown

Recommendation: Although progress has been made, the District should continue to evaluate

and improve year-end reconciling as part of the year-end closing process and not as audit adjustments. Additional year-end closing procedures should be adopted by the District to ensure all activity and entries are

recorded prior to the audit engagement.

Prior Year Finding: Yes, see Finding 2021-001

Auditee Response and Corrective

Action Plan: See attached response.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2022

Section II – Financial Statement Findings (Continued)

B. Compliance Findings

There were no compliance findings related to the financial statement audit required to be reported.

Section III - Federal Award Findings and Questioned Costs

A. Significant Deficiency(ies) in Internal Control

There were no findings relating to the Federal awards as required to be reported in accordance with Section 2 CFR 200.516(a) of the Uniform Guidance.

B. Compliance Findings

There were no findings relating to the Federal awards as required to be reported in accordance with Section 2 CFR 200.516(a) of the Uniform Guidance.

SHAMOKIN AREA SCHOOL DISTRICT

2000 WEST STATE STREET COAL TOWNSHIP, PA 17866

(570) 648-5752 FAX: (570) 648-2592

Chris J. Venna Superintendent Karen A. Colangelo Business Manager

Shamokin Area School District

For Year Ended June 30, 2022

Significant Deficiency in Internal Control Finding 2022-001 Financial Statement Adjustments and Presentation

Corrective Action Response

Management Response

The School District has determined at this time that it is not beneficial to reconcile and prepare all of the material standard and non-standard entries as required as part of the year-end closing process due to staffing limitations and materiality of the entries. The School District has made progress in this area and their goal will be to evaluate on an ongoing basis the reasons for this finding to determine whether it is beneficial to reconcile and record all of the required material journal entries prior to the audit, and to determine whether the cost of correcting the deficiency would exceed the benefits derived from doing so.

Individual Response

The School District has determined at this time that it is not beneficial to reconcile and prepare all of the material standard and non-standard entries as required as part of the year-end closing process due to staffing limitations and materiality of the entries. The School District has made progress in this area and their goal will be to evaluate on an ongoing basis the reasons for this finding to determine whether it is beneficial to reconcile and record all of the required material journal entries prior to the audit, and to determine whether the cost of correcting the deficiency would exceed the benefits derived from doing so.

Timeline: on-going

Respectfully submitted,

Karen Colangelo Business Manager

Summary Schedule of Prior Audit Findings For the Year Ended June 30, 2022

Finding 2021-001 Internal Control Deficiency Over Adjusting Entries and Presentation

of the Financial Statements - Significant Deficiency

Condition: Audit adjustments were required to be posted to the District's general

ledger to properly reflect its financial position and financial activity for the year under audit. Although much of the information for the adjustments was provided by the District, some had not been analyzed and reconciled as adjustments and posted. The fact that these procedures were required in order for the financial statements to be properly stated constitutes a

deficiency in the District's financial reporting processes.

The District was unable to provide final financial statements for entity wide statements without guidance from the auditor. In connection with the audit of the District's financial statements, management has requested that we assist in the drafting of the financial statements, required supplementary information, and related footnote disclosures. No population was tested; finding is based upon understanding and review of the yearend financial

reporting system.

Recommendation: Year-end closing procedures should be adopted by the District to ensure

all activity and entries are recorded prior to the audit engagement.

Conclusion: Finding unresolved. See finding 2022-001.
